**WE ARE
STIR FOOD**

- and we exist because we believe in the purpose that lies in the sharing of a meal. Doesn't most of life's most meaningful moments occur when gathered around a dinner table, or over the breaking of bread?

Good food sets the stage for people to come together...whether for a big, festive wedding or an intimate, personal gathering. Oh, and by "good" food we do not necessarily mean fine dining or a fancy menu. Firmly rooted in a food philosophy of simplicity and freshness, "good" food in our books, refers to carefully sourced produce, flavours that are well balanced and harmonious, and food that is prepared in its simplest, most flavourful way.

*So yes, we are about good food...
and everything that it entails.*

OUR OFFERING

offering

CORPORATE

*Catering for world-class brands,
cooking for VIP clientele,
or whipping up traditional
favourites for a casual day out,
all boils down to the same thing:
fancying something to nibble
on. We work closely with each
discerning client to create a menu
to suit.*

*Regardless of the occasion, our
philosophy remains the same:
simple, great flavours, honest
produce and a creative approach.*

WEDDINGS

We are advocates for celebrating the things in life that are most valuable.

We absolutely love weddings where 12 guests share in a feast, and we still get a kick out of elaborate-all-out-go-big-or-go-home weddings. Whatever shape your special day takes on, your genuine intention to celebrate together and share experiences, makes it quite simple for us - to eat and be merry (there's a reason that's a saying).
